PROFILE

A hands-on IT graduate who blends real-world development experience with a genuine love for problem-solving. From building production-ready React apps to keeping end-users happy and systems running smoothly. I bring curiosity, care, and collaboration to everything I do. Eager to grow in an IT support environment where technology meets people.

EXPERIENCE

Frontend Development Intern

Professional Computer System (PCS)

01/2026 – Present
Chakupat, Lalitpur

- Developing production-ready React applications following Clean Architecture principles.
- Implemented Redux state management for scalable and testable application logic.
- Converted Figma UI/UX designs into pixel-perfect, responsive React interfaces.
- Integrated RESTful APIs for dynamic data handling and business logic.
- Collaborated with team members using Git/GitHub for version control.
- Focused on performance optimisation, clean code practices, and reusable components.

IT Support (Panika Office)

Examination Controller Office, Tribhuvan University

Balkhu, Kathmandu

- Managed data entry operations and maintained examination records with high attention to detail.
- Configured VPN connections and operated legacy systems via DOSBox.
- Assisted in end-to-end processing and verification of examination data.
- Diagnosed and resolved technical issues in collaboration with the IT team.
- Developed professional skills including teamwork, problem-solving, and office administration.
